

## Air Services Company COVID-19 Status Update

3/20/2020

As COVID-19 has been affecting all our lives, Air Services Company wants to assure you that we remain committed to the health and safety of our employees and customers. We have instructed employees to follow the CDC recommendations regarding hygiene and contact with others. We have altered our procedures to reduce risk to our employees and our customers. Our service technicians are equipped with disinfectant spray to use on machine touch surfaces of customer equipment before and after use.

Currently, all branches are open, and our field service technicians are performing needed repairs both in our shop and at customer facilities. Our sales and support staff are continuing to work to satisfy customer needs (office and sales staff are working from home wherever possible). Air Services Company remains committed to providing you with the level of service that our customers have enjoyed for 42 years.

We will continue to monitor the situation and will send additional communication as needed. In the meantime, please feel free to reach out to us if you have any needs or concerns.

Thank you for trusting us with your business.

Sincerely,

Air Services Company
